

Tap Application for Water & Sewer Service (New Location)
Moore County Department of Public Works – Utilities Division / East Moore Water District
5227 Highway 15/501 P. O. Box 1927, Carthage, NC 28327 (910) 947-6315

Name: _____ Additional name(s) on account: _____ Date: _____

Service Address: _____ LRK #: _____ Lot # _____ Unit: _____

Mailing Address: _____ City: _____ State: _____ Zip: _____

Phone #: (____) _____ (____) _____ Email: _____

Tap Size Desired: _____ Engineering Approval: _____ Developer Tap Fee Applies? () Yes () No

Meter Size	Domestic/Irrigation	Sewer	A reduced tap rate is available for a ¾” dual service connection if the residential and irrigation meters are installed at the same time. Cost for both is \$2,600.
¾” meter	\$ 1,950	\$ 2,300	
1” meter	\$ 2,075	\$ 2,300	

*All meters 2” and larger will be installed at actual cost of materials and labor. However, cost varies widely based on size of the meter, terrain, ease or complexity of installation, and many other factors. We will provide an estimated cost for your installation upon request of applicant.

Provide initials below:

_____ It is the applicant’s responsibility to determine the required flow rate and choose the appropriate size meter and service connection.

_____ I have included my \$100 deposit.

_____ Government issued ID is required for all individuals listed on the account.

_____ I understand that it is my responsibility to read the Water Ordinance that governs my service.

_____ Applicant is responsible to obtain all appropriate permits and inspections. For assistance with this please contact the Moore County Central Permitting Office at 910-947-2221 or Pinehurst Inspections Department at 910-295-2581.

WATER AND SEWER SERVICE LOCATIONS: MCDPW will determine the best location for the water and sewer taps prior to house construction. A blue flag will be placed by the customer at the preferred tap location. If we are unable to accommodate that location, MCDPW will meet the applicant to determine best location. Water meters are installed at lot corners whenever practical. Sewer service connection locations vary due to topography, existing sewer main location and other requirements. Water meter boxes and sewer cleanouts are to be kept so that they are easily accessible for maintenance. There should never be landscaping concealing the location of the water meter box or sewer cleanout. Sewer cleanout must remain above grade. Payment for any damage done to the sewer cleanout, water meter, meter box or lid, etc. other than natural causes, will be the responsibility of the account holder(s).
